Before I knew the God of love

To know the love that conquers all

And I found Your love in the deepest sea  
On the mountain top and every space  
between  
There's no veil and no grave  
That could ever separate  
Your love is now available

## Intro

## Vers 2

There are no words for all You own  
The stars revolve around Your throne  
You saw my heart, ashamed and broken  
And gave Yourself in my defense

And I find Your love in the darkest grave  
To the third day dawn when You rose again  
There's no veil and no grave  
That could ever separate  
Your love is now available

## Mellemspil

## C stykke 1

If love is in Your nature  
Let love be found in me  
The kind that sees a beggar  
And treats him like a king

## C stykke 2

If love is always moving  
Then move and let me find  
My heart like Yours be broken  
To leave the ninety-nine  
Oh-oh, woah x2

And I find Your love in the lowest place  
For the one who's lost there's a flood of grace  
There's no veil and no grave  
That could ever separate  
Your love is now available
